

UNIPAS®

Heavy duty Steel and Stainless steel Pallets

Customizable pallets
EU / GB / USA / AUS

UNIPAS

Benefits and Features:

The UNIPAS Steel and Stainless Pallets are a 4-way pallet designed to be a durable and robust choice for special material handling needs. Its surface treatment is hot-dip galvanizing. 4 - road steel pallet made in standard dimensions for the EU, GB, USA, AUS market.

The biggest advantages include:

- Resistant to contamination
- Easily sterilized - hygienic, without pests
- Great stability and stackability - corner stops
- Mechanical resistance and robustness - extra long life
- Resistant to corrosion and weathering
- Fire resistant
- 100% recyclable

These advantages make galvanized steel pallets extremely useful for a wide range of industries:

- Chemical and pharmaceutical industry
- Transport and handling of food
- Long-term outdoor storage
- Structures

Product Specifications:

Dynamic load: 2500 kg / 5 511 lb

Static load: 6000 kg / 13 227 lb

Empty weight: 36-45 kg / 79-99 lb

Material: galvanized steel S235 /Stainless steel

Working temperature: -40 +80°C / -40 to 176 °F

Maximum static load: 36 kg / 79 lb

Length:

- EU 794 mm / 31,25 inch
- GB 1000 mm / 39,37 inch
- USA 1010 mm / 39,76 inch
- AUS 1152 mm / 45,35 inch

Width:

- EU 1193 mm / 46,97 inch
- GB 1200 mm / 47,24 inch
- USA 1212 mm / 47,72 inch
- AUS 1154 mm / 45,43 inch

Height:

132 mm / 5,19 inch

100% recyclable, automated cleaning is possible
