

UNIPAS®

UN standard - IBC Container 1000L

Foldable IBC container for liquid materials.

UNIPAS

Benefits and Features:

UNIPAS UN standard - IBC Container 1000L is specifically designed for the transport and logistics of hazardous materials. The design of its reinforced structure meets market requirements with an emphasis on safety, reliability and functionality. Container is equipped with the USLS system - a patented self-locking system for simple, fast and safe logistics operations. It is equipped with a fully foldable closing 50:50 lid with the option of locking in the open position and a front discharge system with a universal cassette that is compatible with all existing discharge valves of all liner bags available on the market. Easily cleaned and stored, meets all hygienic standards for food, chemical and cosmetic industry.

The biggest advantages:

- Patented USLS (Unipas self-locking system)
- The container can be locked in one place
- Universal cassette for all discharge valves available on the market
- Foldable and locking split lid

Product Specifications:

External dimensions W x L x H:

1112 x 1112 x 1112 mm / 43,78 x 43,78 x 43,78 inch

Internal dimensions W x L x H:

1035 x 1035 x 956 mm / 40,75 x 40,75 x 37,64 inch

Dimensions of the folded product W x L x H:

1112 x 1112 x 400 mm / 43,78 x 43,78 x 15,75 inch

Volume: 1021 l / 225 gallon

Empty weight: 172 kg / 379 lb

Load capacity: 1500 kg / 3307 lb

Folding ratio: 1:2,5

Maximum static stacking: 5 fully loaded units on top of each other

Maximum dynamic load: 2 fully loaded units
