

UNIPAS®

Universal 1000L IBC

Specially designed for the storage and transport of liquid materials.

UNIPAS

Benefits and Features:

UNIPAS Universal 1000L IBC is a solution with a unique design with the worldwide patented self-locking system, specially designed for the storage and transport of liquid, loose and solid materials by us.

To satisfy market requirements, we have developed advanced functions of UNIPAS® universal container.

This includes front discharge with the base, fully foldable closing 50:50 lid and our universal cassette which we can fit in all existing discharge valves of all liner bags available on the market.

Easily cleaned and stored, meets all hygienic standards for the food, chemical, and cosmetic industry.

Product Specifications:

Application: Liquid materials

Dimensions:

External dimension with lid:
L 1210 x W 1010 x H 1160 mm

Capacity and weight:

Load capacity: 1 400 kg
Load volume: 1035 litres
Empty weight: 135 kg

Working Temperature: -25 to +60 °C

Folding ratio: 1:2,5

Max stacking: 5 full loaded units up

Max dynamic load: 2 fully loaded units

Materials: galvanized steel, polypropylene

Patented USLS - Unipas Self Locking System
